

# DO YOU SUFFER FROM HIDRADENITIS SUPPURATIVA?

Professor Dedee Murrell and her team at Premier Specialists are conducting a study for a potential new treatment for Hidradenitis Suppurativa.

We are looking for people aged between 18 and 80 years with a diagnosis of Hidradenitis Suppurativa.

## YOU MAY BE ELIGIBLE FOR THIS POTENTIAL NEW TREATMENT.

Hidradenitis suppurativa is a chronic inflammatory skin disease that affects the skin in the axillae, groin, and under the breasts. The typical presentation is recurrent boillike nodules and abscesses that culminate in a purulent discharge, sinuses, and scarring. It has a significant psychological impact, and many patients suffer from anxiety, depression, and impairment of body image.

**ALL STUDY-RELATED CARE WILL BE PROVIDED AT NO COST**
